If you can answer yes to these questions, you may be eligible for the Government Co-contributions Scheme

- Have you made a personal contribution to your super?
- Is your before-tax income less than \$60,342 p.a. (plus reportable fringe benefits)?
- Are you in full-time, part-time, casual employment or are you self-employed?
- Is at least 10% of your total income (assessable income and reportable fringe benefits) attributable to eligible employment, running a business or a combination of both?
- Are you under 71 years of age?
- Are you a permanent resident of Australia?
- Have you lodged an income tax return?

Co-contributions are calculated after you lodge your tax return

Co-contributions are calculated on a financial year basis. So for co-contribution purposes, it doesn't matter if you have made several personal contributions throughout the year or just a single payment.

Once you've lodged your tax return, your co-contribution will be worked out using your total income for that financial year and your personal contributions. The ATO will then deposit the co-contribution into your super fund using your TFN, so make sure you've provided it to us. You'll also receive confirmation from the ATO in the mail.

| YOUR INCOME | YOUR PERSONAL CONTRIBUTIONS | | | | This table shows the amount of co-contribution that you would receive from the Government. For example, if your income is \$35,000, and your voluntary contributions for the year are \$800, you would receive a Government co-contribution of \$1,200 paid into your account with AMIST Super. |
