The information in this document forms part of the Product Disclosure Statements for AMIST Super Employer Sponsored and Personal Divisions dated 3 March 2018.

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

AMIST Super is an industry superannuation fund, and operates on the basis that all earnings are paid to members of the fund and charges fees to meet the operating costs of the fund only. AMIST Super does not pay any commissions.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a calculator to help you check out different fee options.

Management Costs

Investment Management Fee The fees and costs for managing your investment and includes performance based fees and the fee charged to AMIST Super by its Custodian for managing the Fund's assets. The actual percentage payable for each investment option appears on page 3.	0.05% to 0.80% The actual percentage depends on which investment option your assets are invested in. Refer to the table on Page 3.	These costs are deducted from the investments of the Fund. The crediting rates declared by the Trustee are the return after these fees have been deducted. Some investment managers may be entitled to receive performance based fees where they provide investment returns that exceed predetermined targets. The amount shown is based on the performance based fees earned during the 2016/2017 financial year. These fees are also deducted from the investments of the Fund - the crediting rates declared are net of these fees.
Administration Fee The fees and costs for management of your account.	\$1.70 per week	Deducted at the end of each month from your account balance. (The average charge is \$88.70 per annum).
Expense Recovery Fee The Trustee is entitled to recover from the Fund expenses that cannot be met from the administration or investment fees. Investment Costs

The Investment Costs are charged to AMIST Super by investment managers for investing the assets of the fund and for other investment related activities.

These costs vary depending on the type of investment and are deducted from the investments before earnings are calculated. The Investment Costs also include for some investments Performance-based fees, borrowing costs, the fees charged by interposed vehicles, and the fees charged by the Fund's Asset Consultant and Custodian. Some of the investments of the MySuper, Balanced, Capital Stable, Growth and High Growth options also have performance-based fees, where the investment manager receives a bonus if the investment return exceeds certain targets.

The table below shows the fees and costs for each investment option based on the fees charged during the year ending 30 June 2017. The investment fees are captured annually (at 30 June) and may be subject to change. Because investment costs vary from year to year and some are not known until after the end of the year the costs provided below for each investment option include all investment-related costs for the 2016/2017 financial year.

Investment Option	Investment Management Fees	Performance Fees	Indirect Investment Fee	Total
Secure	0.05%	0.00%	0.00%	0.05%
Capital Stable	0.36%	0.01%	0.16%	0.53%
MySuper	0.47%	0.02%	0.20%	0.69%
Balanced	0.47%	0.02%	0.20%	0.69%
Growth	0.50%	0.03%	0.21%	0.74%
High Growth	0.53%	0.01%	0.26%	0.80%

Investment Management Fees shown are based on Fees that were paid to investment managers and other investment related service providers during the year ended 30 June 2017. Performance fees shown above are based on an estimate of fees payable to managers in the event that their performance exceeds a pre-defined target. The performance fee for each option is based on the asset class in which the option's assets are invested. The Indirect Costs for each option are an estimate of the costs for the year ending 30 June 2017.

These fees may change each year following the finalisation of the end of year accounts.

Example of annual fees and costs for the MySuper investment option

This table gives an example of how the fees and costs in the MySuper investment option for this product can affect your superannuation investment over a one-year period. You should use this table to compare this product with other superannuation products.

EXAMPLE – AMIST MySuper		BALANCE OF \$50,000
Investment costs	0.69% (0.47% investment management fee, other investment costs 0.20%, and 0.02% performance fee)	For every \$50,000 you have in the Fund \$345.00 p.a. will be deducted from your investment.
PLUS Administration fees	\$88.70 (\$1.70 per week)	You will be charged \$88.70 p.a. in administration fees regardless of your balance
PLUS Indirect costs for the MySuper product	0.07%	And, for every \$50,000 you have in the Fund Indirect costs of \$35.00 p.a. will be deducted from your investment
EQUALS Cost of Product		If your balance was \$50,000, then for that year you will be charged fees and costs of \$468.70 p.a. for the MySuper Product

The investment fees and indirect cost are based on the costs for the most recent financial year (ending 30 June 2017). These may change each year following the finalisation of the end of year accounts. Additional fees may apply; and if you leave AMIST Super you may be charged an exit fee of \$50.00.

Additional explanation of fees and costs

Investment costs

The investment costs that the Trustee incurs are not withdrawn directly from your account but are deducted from the assets of the Fund before the annual crediting rate is determined. They may vary according to the investment option you are in.

Performance based fees

Some investment managers used by AMIST Super may be entitled to receive performance based fees where they provide investment returns that exceed predetermined targets.

See the table on page 3 for details of the performance fees.

Interposed vehicle

Some of the investments of AMIST Super are invested through other entities, called interposed vehicles, rather than directly in listed or unlisted assets. An interposed vehicle is an entity such as another fund (XYZ Fund) that the Trustee invests in, which in turn invests in assets such as listed shares. For example, the XYZ Fund incurs costs for running its fund and these costs are generally reflected in the price of that fund. These are included as part of the Investment Costs incurred by AMIST Super.

Direct investments in infrastructure and lending businesses

Some of the investments of AMIST Super are directly owned by the Trustee. Any costs associated with these investments are deducted before the annual crediting rate is determined.

Borrowing Costs

AMIST Super is invested in certain investment vehicles which incur borrowing costs. The amounts borne by particular investment options vary and are currently included in the Investment Costs. The borrowing costs are recovered from the revenues of the particular investment prior to the distribution of any earnings from the investment to the Trustee.

Transactional and operational costs

Each investment option incurs transactional and operational costs to varying extents. These typically include items such as: brokerage; stamp duty; and settlement and clearing costs, and property operating costs for options which invest in property-related vehicles.

These are included as part of the Investment costs incurred by AMIST Super.

Expense Recovery Fee

The Expense Recovery Fee is charged against the investment option your superannuation is invested in and does not come directly out of your account.

Indirect Costs Ratio

Indirect costs include all costs that are not directly deducted from a member's account. For AMIST these costs include Investment Costs and for some investments Performance-based fees and Borrowing Costs. The Expense Recovery Fee is also an indirect cost.

Fee changes

AMIST Super reserves the right to change the fees charged at any time. You will be notified of any increases in fees at least 30 days prior to that change taking effect.

Insurance costs

Please refer to the AMIST Super Insurance Guide for details of the cost of AMIST Super Life Insurance, TPD and Income Protection cover.

Taxation

Please refer to the *AMIST Super Taxation* Fact Sheet for details of the taxation applicable to superannuation. Please note that the taxation rates are subject to change by the Commonwealth Government.

Please contact the Australian Taxation Office on telephone 13 10 20 or refer to the ATO website www.ato.gov.au

Dishonour fee

If you make personal contributions to AMIST Super via Automatic Bank Transfer, and your financial institution dishonours the transaction, any fees charged to AMIST Super as a result of that dishonour would be deducted from your member account. You will be advised of this in writing.

Family law fee

If you or your spouse request detail of your entitlements for Family Law Purposes, or your member balance is to be split between you and your spouse, additional fees apply. These fees are detailed in the table on the previous page.

No fees are charged for simple “single-issue” advice provided over the telephone by Link Advice who have been engaged by the Trustee to assist members who require financial advice.

Where Link Advice agrees to provide more detailed advice a member may elect to either pay that fee directly to Link Advice or alternatively (provided the advice relates only to superannuation) request that the Advice Fee is deducted from their AMIST Super member account. This is the only circumstance where a fee is deducted from a member’s account for Advice.

Switching fees

A switching fee is a fee to recover the costs of switching all or part of a member’s interest in AMIST Super from one class of beneficial interest in AMIST Super to another.

AMIST Super does not charge a switching fee.
